Allergens

Any item with a * next to it means it can be gluten free, we take extreme caution with this and only ever put food free from gluten on our grills or in our fryers, that said due to the size of our kitchen and the fact we have burger buns containing gluten within the kitchen, all items are labelled with MC as most service kitchens are advised to do. We do not offer any food that is processed in a guaranteed free from environment so are unable to offer a guarantee and say that customers with life threatening allergies should always have an epipen and dine on a "at your own risk basis, apologies but we hope you understand.
